

DeltaHacks IV

Jan 27-28, 2018

Sponsor Package

Introducing

DeltaHacks IV

Dear Potential Sponsor,

Four years ago, we had a vision to empower students through innovation and technology. That's why PhaseOne, McMaster's premier tech community, developed DeltaHacks to carry out this mission. From a team of 5 founders to a group of 27 and growing, we have enabled hundreds of students from many different universities to come together and have the opportunity to "Hack for Change" - a unique approach to creating projects that encourages solving modern challenges that the world faces today.

As one of Canada's largest hackathons, not only is the 2 day event jam-packed with workshops, events, and amazing food, we also distinguish ourselves through a powerful mentorship process that guides hackers to solve the toughest problems with the expertise of these mentors. Whatever their focus may be – healthcare, education, environment, inequality – students strive to create a positive impact through their projects and efforts.

But DeltaHacks isn't just an event for students - it's an event for you! By sponsoring us, you will interact hands on with talented individuals. On top of that, you will also make a positive impact towards our society. If you're adventurous enough, our Platinum tier benefits will make your experience shoot to the moon!

On behalf of the whole team, we thank you for your interest in DeltaHacks! We aim to bring the best value to your organization so we invite you to learn more about us as you flip through this package. We hope to hear from you soon!

Alic Jiang
Director

Daria Yip
Head of Relations

Shivaansh Prasann
Head of Logistics

Abhayraj Jain
Head of Marketing

Natalie Chin
Head of Supportive Relations

And the rest of the DeltaHacks team.

Benefits

Recruit the best

Unlock access to top talent to fill your needs through participation at our event! Interact with students from a variety of backgrounds and majors via your recruiters and mentorship.

Promote your product / get feedback!

Test out your products at our event through a talented tech community of hackers who can help you gain crucial insight and feedback. Stand out with a unique prize category and an option to do a live api demo during our opening ceremonies!

Laser focus your marketing

Increase your company's awareness through curated online content and custom workshops that you can host at our event. Stand out by bringing cool swag and put your company in the spotlight through sponsored meals and activities!

Gain Platinum exclusive benefits!

We believe our platinum tier is one of kind, so good that we can only offer this spot to the highest bidder. Not only are we providing you unbelievable value, we are offering truly unique perks that will allow you to stand out and get the most out of your experience at our event!

Your funds will go toward prizes, hardware, logistics, food, and swag. In the following pages we provide a breakdown of the different perks we offer in return for sponsorship.

All participants own the intellectual property rights to any projects they create at DeltaHacks, including the rights to sponsored prize competitions.

Before/After Event

After Event

Early Bird Special

If you are one of the first two sponsors in the Gold, Silver, or Bronze tiers to confirm and sign the sponsorship contract by Nov. 3, 2017, you will receive these additional benefits:

› GOLD

We will give you priority choice in the main lobby tables, we will distribute your swag in our swag bags and we will even name a hacker classroom based off a name of your choice!

› SILVER

You will receive an additional 20 minutes for your company workshop for free and you can have a prize pool up to \$500 in total!

› BRONZE

You will be included in priority choice of the Delta^A Lounge and your logo on the website will be upgraded to include an embed hyperlink.

1. There will be 3 rounds of bidding conducted in a blind system. All bids for the first round must be emailed to us by October 7th. We will then inform all bidders of the highest bid, and they will be given the opportunity to top the highest bid by October 14th. A final round will take place, and the highest bid will be selected on October 21st. The top 2 bidders will then be given the opportunity to outbid each other, and the top bidder will be informed by October 30th.
2. Future marketing content includes next year's sponsorship package, our website, social media and more!
3. We will include a time slot in next year's opening ceremonies to showcase the winner of your prize category and will include online content linking to it as well.
4. The Deltahacks team will host an 8-hour mini hackathon exclusively based on your company's api/hardware before the main event itself. We will promote on social media the best hacks created during that event and we'll even participate ourselves!
5. This includes custom emails sent to our attendee's list, custom made swag we can distribute for you during the event and best of all, custom videos we can collaborate with you to post on our social media
6. An entire section of the website for you along with an option to post a custom video (max 5 minutes long, has to be approved by the DeltaHacks team)
7. We will provide you an entire room to customize based on your needs. It can include whatever you want so long as it is compliant with fire safety standards.
8. You have the option to do the keynote in either the opening or closing ceremony.
9. We can create an event (max 60 minutes long) during DeltaHacks based on a theme you are interested in.
10. We'll discuss this with you in a meeting to identify your needs and how we can work together to recruit top tier talent for you straight out of the event.

Statistics

Who comes to hack?

Last year, we received 1188 applicants from 14 of Canada's top universities and with over 16 different majors. 400 best fitted students were chosen to attend the event

Our hackers love our sponsors so much,
that of the 49 projects created, 47 were made for sponsors!
